Basis of Presenting Consideration Financial Statements

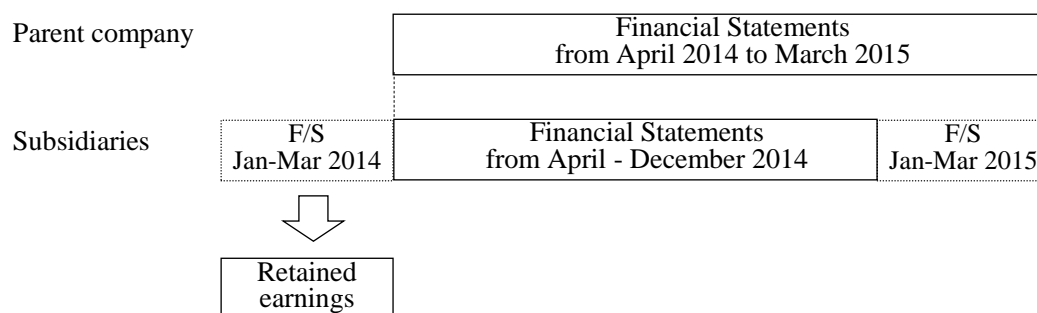

Change in fiscal year of subsidiaries

The date of closing accounting period for Yushin America, Inc. and all other consolidated subsidiaries was December 31st of the year until last fiscal year of the Group. Subsidiaries' financial statements as of the closing date were used in preparation of the consolidated financial statements and adjustments considered necessary for consolidation were made in accordance with Japanese standards.

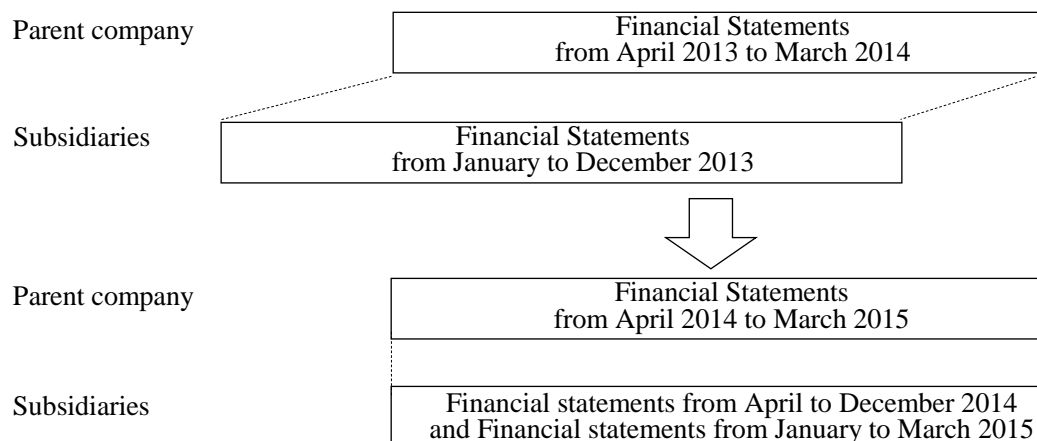

In order to provide more appropriate disclosure of consolidated financial statements, the Group altered the way of disclosure on the consolidated financial statements based on a unified financial reporting date. All subsidiaries prepare provisional settlements of account as of March 31st and those financial statements are taken into the consolidated financial statements from the beginning of this fiscal year.

Profit and loss of all subsidiaries between January 1st, 2014 and March 31st, 2014 were directly recognized in "Retained earnings" of the consolidated financial statements.

Changes in accounting policies

Adoption of Accounting Standard for Retirement Benefits

Yushin has adopted the Accounting Standard for Retirement Benefits (ASBJ Statement No.26 issued on May 17, 2012; hereinafter, the “Accounting Standard for Retirement Benefits”) and the Guidance on Accounting Standard for Retirement Benefits (ASBJ Guidance No.25 issued on May 17, 2012; hereinafter, the “Guidance on Accounting Standard for Retirement Benefits”) in accordance with Article 35 of the Accounting Standard for Retirement Benefits and Article 67 of the Guidance on Accounting Standard for Retirement Benefits from the current consolidated fiscal year under review. Yushin reviewed the calculation methods of retirement benefit obligations and service costs, and changed the method of attributing all contributions over all periods to periods of service based on the benefit formula instead of on a straight-line basis, as well as the method of determining a discount rate from the use of a discount rate based on the number of years similar to that of the average remaining service period of employees to the use of a single weighted average discount rate that reflects the estimated payment period of retirement benefits and the amount per that period.

Yushin adopted these accounting standard and guidance in accordance with the transitional treatment specified in Article 37 of the Accounting Standard for Retirement Benefits. Amounts occurred due to such changes in calculation methods are recognized by adding to or deducting from retained earnings at the beginning of current consolidated fiscal year under review.

As a result, Net defined benefit asset on the consolidated balance sheet was increased by 142,415 thousand yen and Retained earnings was increased by 91,858 thousand yen at the beginning of current consolidated fiscal year under review. The impact of the above changes to for the current consolidated fiscal year under review is immaterial.

Also noted that the effect on Net assets per share increased by 5.25 yen.

Segment information etc.

Segment information

1. Overview of reportable segment

Segments used for financial reporting are the Company’s constituent units for which separate financial information is available and for which the Board of Directors performs periodic studies for the purposes of determining the allocation of resources and evaluating performance.

Yushin carries out the development, production, sales and after-sales maintenance of take-out robots for injection-molded products and peripheral equipment, including labor-saving systems. In the domestic market, these operations are handled by the Company; overseas markets - North America, Asia (South Korea, Taiwan, China, Indonesia, Vietnam, Malaysia, Thailand and India) and Europe (UK) - are serviced by local subsidiaries, including Yushin America Inc. (US), Yushin Korea Co., Ltd. (South Korea) and Yushin Automation Limited (Europe). The local subsidiaries are independently managed units, with separately drafted strategies and activities.

Accordingly, Yushin's operations, based on its production, sales and after-sales maintenance setups, are geographically grouped into four reportable segments: Japan, North America, Asia and Europe.

2. Method of calculating sales and profit (loss), identifiable assets, and other items by business segment reported

Accounting policies for the reportable business segments are the same as “Basis of Presenting Consideration Financial Statements”.

Income by business segment reported is calculated based on operating income.

Inter-segment income and transfer are based on realized market price basis.

3. Information related to sales and profit (loss), identifiable assets, and other items for each reportable segment
